Overarching	How is a parent with a child who has an IEP supposed to decide which option to select if the school system hasn't provided any guidance as to how they will meet IEP goals in both scenarios?	
Overarching	If we do distance learning, will the kids be with teachers and students from their home school?	
Overarching	What is the discipline if a child (elementary school) refuses to wear their mask?	
Overarching	What does increased in person for special ed mean?	
Overarching	What is FCPS doing to ensure special education students are receiving the required assistance as identified in their IEPs? Efforts made under the TLP were laughable.	
504	How will 504 plans be implemented in both options? Will they be revised to address needs specific to the virtual learning environment?	2
Accommodations	How will you accommodate students with special needs and an IEP?	
Accommodations	distancing?

Accommodations	What about the use of weighted lap blankets, chewies and fidgets?	
Accommodations	What happens when a student needs to take a break - where is there space in the classroom? what about outside the classroom as directed under Responsive Classroom?	
Choices	and not all?	
Communication	Will you plan on communicating teacher expectations with parents? Parents needed to know this past year when the deadline was for TLPs and then parents would have been able to communicate with the school when they had not heard a word from their special education teachers.	
Compensatory Services	Will Compensatory services be provided to students with IEPs?	
Compensatory Services	How will the need for compensatory services be determined?	

Compensatory Services	For student with limited IEP time where it is more teaching Gen Ed teachers how to work and support HFA, but student must be in school for his IEP goals to be worked on? High School student steictly needs to implement proper/societal social skills. Will they get extra intervention/access ro Gen Ed teachera for all the in person time lost?	
DHOH	For those children and adults who are deaf and hard of hearing- they need those around them to wear the masks that have the clear center- how will these new supplier you make sure they aren't excluded in day to day operations at school with teachers and peers?	
DHOH	Can you please take into account schools that have feeder programs (such as Deaf and Hard of Hearing Program) when considering changing bell schedules? These schools already have kids busing in from all over the county and a very late bell schedule would be negatively effect these kids' lives after school. Their commute is already an hour...	
Equity	person versus those receiving online learning? In person education the students will be in front of education professionals for approximately 7 hours for two days. Online learners will receive per the slides in board docs: Gr 3-6: 3.5 Hrs/day: teacher-directed instruction (whole group, small group, and individual) & 1 special/day 1 Hr/day: specialized instruction (e.g., ESOL, SPED*, interventions) for targeted students 2 Hrs/day: choice activities (asynchronous). I am nervous about this idea of grouping students from many different schools into a class for online learning and the teacher has zero history on the child as they are not teaching in their home school. This could really set my child back academically.	
Equity	How do you plan to avoid inequalities among schools regarding synchronized teaching? My kids' experience differed vastly from elementary school to elementary school.	
Equity	Huge equity concerns. Some schools could go 4 days / week if half the kids go virtual. With each school having autonomy, that leads to inequity

Flexibility	If parents opt for virtual or in-person, and situations demand a change (higher/lower Covid cases, parent career changes) will families be allowed to make a change at some point in the year?	7
Flexibility	If I sign up for the in-person option, and then my child is assigned to a school that is not my neighborhood school, can I change my mind and go to distance only option?	
Flexibility	all virtual learning? If we start with in person learning and switch to all virtual, would that mean switching to new teachers?	5

Flexibility	If I don't enroll in virtual learning and come August the # of virus cases is skyrocketing and I'm too afraid to send my child to school, what are my options?	3
Flexibility	If my child is ill or contract the virus during the school year and we did not opt for virtual learning, does it become available during the quarantine period?	
Flexibility	Can FCPS legally not allow a student to switch from online learning option to in-person learning mid-year?

General - Schedule	What is the rationale behind only providing 4 days of virtual instruction? School was always 5 days until COVID and now 4 days seems to be "full time"?	
General - Schedule	an extra difficult time keeping up with distance learning since each school had their own methods. Not a complaint, BTW!	
General - Schedule	Are office hours part of the required synchronous learning time or will there be more time set aside for them?

If we do choose to send them 2 days, what will asynchronous learning look like the 3 days we're at home? How can teachers get through a whole year of curriculum if they only teach 2 days a week and the rest of the days the kids are home on their own, presumably not learning any new material? What kind of resources and guidance will parents have on the 3 days a week we are on our own trying to keep the learning going? Will siblings go to school the same days? Health & Safety	the 5th and 6th grade wing consists of 10 classrooms that all have one shared bathroom each for boys and girls. The bathrooms are equipped with 1 air dryer for hands. They also have a paper towel dispenser but they are not equipped with paper towels.

How will they handle hand washing when returning back into the building. Are portable hand washing stations being purchased?	
Health & Safety	How are non-sick visits to the clinic going to be handled? A child with diabetes is often directed to the clinic during the day depending on their numbers. I do not think a child should be exposed to Covid 19 if they need day visits to the clinic for non sick visits or prescription medication delivery. The clinic aide is the only medical interventionist in the building and she is managing both sick and well students. Given the space parameters, it is not possible for her to keep a 6 foot distance from students or for students to maintain a 6 ft distance while in that tiny room. How is medicine distribution going to be conducted especially if the child has an IEP?	

Health & Safety	During music the kids often share instruments or have to play their own recorder which are kept in bins. How are specials going to be changing to adapt for social distancing but also to keep our students safe, especially those with Autism who may have less impulse control? The same can be asked of PE. Health & Safety	What is the criteria for determining if a school or class needs to shut down and quarantine? How will schools be able to react quickly if there is a suspected case?	4
Health & Safety	Why is the proposed scheduling not prioritizing minimizing mixing germs? If kids are in two groups to limit the spread of a deadly virus, the optimal way to schedule this would be Group A Monday and Tuesday, staff-only on Wednesdays while buildings are deep-cleaned, then Group B on Thursday and Friday. Home Support	and returning to schools during a pandemic puts your family (with two family members in the high risk category) at too great of a risk?	
Home Support	The presentation mentions training parents of SPED students. How and when will this happen?	
Home support	In "Elements Present in all Plans" you mention how SPED services might like for children who need it, what happens if the child caregiver cannot be at home constantly/ or if the child learns better from someone else. Does the system have another way to provide services?	
Homebound	Will home bound services/consultation be available to students with IEPs? If so, how can students access this?	2

My child received 2 phone calls a week with a special education assistant to check in on how my child was doing. Those were the only services during this past quarter. Normally my child receives weekly speech services per week, occupational therapy, social skills and a pull out for help with Math and writing as well as in classroom support during the entire school day as my child receives full special ed support during the day per the IEP.

IEP Implementation	If my child is supposed to get full time special education services while being mainstreamed will my child also get full time special education during both in person and virtual learning?	
IEP Implementation	available for online learning. Will we have opportunities to meet with IEP teams to update IEP's for new learning approaches?	
IEP Implementation	As part of my child's IEP, our early elementary school age child is supposed to join the general classroom (from the Enhance Autism room) for about 7.5 hours a week (1.5 hours a day). My child's mental health and related behavior issues have severely escalated without support from ABA from school.	
Mental Health	nurses,. Been hearing about the PPE for teachers in Special Education Classrooms are being outfitted with similar PPE. Concerned about if our child will become afraid of my child's teacher like similar to their fear of Doctors and Nurses.	
Placement	we select in-person? Having my elementary schooler placed at some random school based on numbers is unacceptable	
Placement	and 504s in the same class. If a class only has 10 general ed kids and 6 of them have IEPs you are creating self contained special ed classes.	
Preschool	Since Preschool Autism Classes (PAC) are already very small, will PAC classes be meeting a fuller schedule such as 4 days a week or their previous 3 full and 2 half days?

Preschool	Will PAC be offered 100% online and if so, what will that schedule look like?	
Preschool	What are the plans for Early Childhood Special Education? Class-based, PAC, AND resource?	
Preschool	Since students missed more than one quarter of instruction, will fcps consider allowing PAC parents to retain students a year after they turn 5 to compensate for the lost instruction?	
Related Services	Will synchronous/live/face to face 1:1 (student:therapist), weekly Speech Therapy be accessible to all students (with an IEP specifying such) who elect on line learning in 2020/2021, and HOW? Biweekly-monthly printable handouts and one faceless call per month are woefully inadequate. Will these be virtual or in-person or consult only like the spring? Staff	What proactive strategies regarding planning and logistics for your special education teaching staff are you putting in place? We support inclusion, IEP goals large and small group lessons amd it is looking like you want people to provide instruction with fidelity with extremely little.planning time.and regard for.teacher well being. Virtual	Will there be. 100% virtual option for IEP students and will that include one on one teacher interaction?	
Virtual	Our child's IEP includes working on social skills and anxiety by interacting with other students. If we opt for the online option, how will this be address?	
Virtual	What format will be used for those who opt for the 100% virtual option? We have done FCPS distance learning, Keystone, and Fcps online campus for my oldest and none provided sufficient Special Ed support. We need an option where the format has clear directions, parents and case managers can assist, and teachers can differentiate based on student need. There are some online options like Landmark college dual enrollment that are based on Universal Design for Learning that FCPS needs to offer as options.	
Virtual	What online platform will be used for 100% distance learning model? Will SpEd services and support be built in to those programs? How will an independent vendor work with IEP team and address IEP goals?	2
